## ATTACHMENTS

### ERB HYDRAULIC RAILBREAKER

Fast, efficient downsizing of rail for recycling, transporting and replacement.

#### Features

- ✓ Replaceable blades have 8 edges for regular rotation and optimum performance
- ✓ Designed to be fitted to a minimum 22t Excavator
- ✓ Capable of cutting up to 70kg rail

#### Suitable For

- ✓ Scrap metal processing
- ✓ Rail service industry

The Embrey ERB30-II Railbreaker is designed for use in the scrap metal and rail services industries for fast efficient downsizing of rail for recycling, transporting and replacing. It minimises the requirement for oxy torch cutting. It is capable of breaking the large 65kg rail. The replaceable blades have 8 edges which allows for regular rotation to ensure optimum performance.

Model	Excavator weight	Attachment weight	Jaw Opening	Oil Pressure	Oil Flow
ERB30-II	22-30t	2200kg	160mm	4000-5000psi	200-270l/m
